

CITY TREE MAINTENANCE

*Havre de Grace is proud to be designated as **Tree City USA**. We value the beauty and the history of our City's trees and strive to preserve and protect them as nature allows.*

We have in place a semi-annual tree maintenance program. This program may involve necessary tree trimming, root cutting, fertilization, planting, cultivating, mulching, pruning, spraying, removal or other maintenance practices.

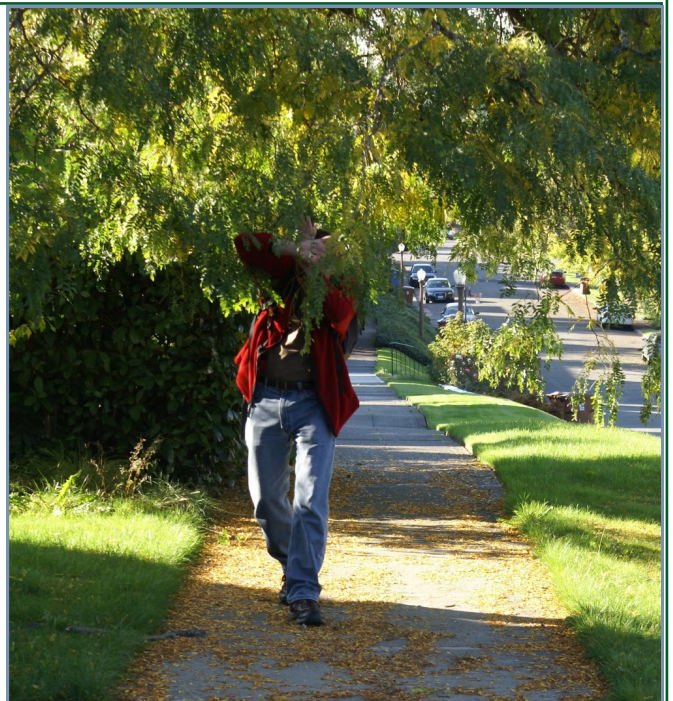

Reporting Hanging Tree Limbs

[City Trees]

City trees are those usually within 35 ft. of the center of the road.

(25 ft. in the newer sections of Havre de Grace)

If the problem tree is, by definition a City Tree, please call Public Works at 410-939-1800 x 2100

What about trees that are not City Trees?

- **When** a tree is beyond the 25-35 ft. distance defined above, then the homeowner is responsible.
- **When** a neighbor's tree limb is hanging over your property, the two of you need to work this out.
- **If** the neighbor's tree limb falls onto your property, you may be responsible for removing it. **Please contact your Insurance Company.**
